STATION ANNOUNCEMENT

We take pleasure in handing you this catalogue for the season of 1933, and hope you will derive some real benefit from its pages and that your garden will be a brighter spot the coming season. The past season was a most successful one with us. Our displays at the shows were very well received by the public and we won our share of ribbons, both in the general displays and the seedling class.

Such wonderful improvements are being made each year with the Dahlia that we stand in awe of what the future may bring. No flower in all the floral kingdom commands so much attention as does the Dahlia, and no flower is more extensively grown. It is the one flower you admire the last thing at night and the first thing in the morning, and it has been truly said that the richest garden is poor if it has no dahlias. If you have never experienced the joy of growing this regal flower you have missed some of the most pleasant hours of life.

Our stock this year, as in the past, is beyond reproach—good healthy plants, well developed have produced strong vigorous roots that will do well anywhere with ordinary care. Reports we have received from all parts of the country have been very gratifying indeed, and we have yet to receive the first complaint either as to quality of our roots or our method of doing business. The Golden Rule is applied to all our business transactions.

We grow all the dahlias we sell, care for them ourselves, and farm nothing out, thus more nearly avoiding chances of mistakes. If mistakes do creep in, we are more than anxious to correct them and your word is all that is necessary.

VISIT OUR GARDENS which are located in West Seattle just two miles from the West Seattle bridge on the road to White Center. Take street cars No. 2 or No. 3 any place on First Avenue, transfer to 24th Avenue S. W. bus and get off at Raymond Street, and you are right at the gardens. In driving out after turning on the White Center road, signs will direct you. The gardens will be a mass of blooms from the first of August until frost.

GUARANTEE—We guarantee all roots to have a live eye or sprout and to be true to name. Should any mistakes occur we will gladly correct them. Complete growing instructions will be enclosed with all orders.

TERMS AND DELIVERY—Order your roots early. All orders are reserved in rotation and a late order may mean a disappointment. A cash deposit of 25 per cent will assure the reservation of varieties that might otherwise be sold out. Roots will be delivered between April 15th and May 15th, unless otherwise ordered.

REMITTANCE—Stamps accepted up to \$2.00. P. O. Money Order, bank draft, or registered letter should be used with all orders. We pay the postage on all orders over \$1.00. No orders sent C. O. D. unless 50 per cent of purchase price accompanies the order.

NAME AND ADDRESS—Remember to write your name and full address as plainly as possible. It is safer to print it.

All orders and communications should be addressed

Two Northwest Introductions That Are Very Desirable and Which Were Well Received in the East the Past Season. They Are Both Outstanding in Their Color Class and Will Be an Added Beauty to Any Garden.

WM H. SHOREY (F. D.)—This beautiful Dahlia originated in the gardens of W. F. Sertz of Seattle. It won its share of Blues in the Seedling Class, scored 86 at the Northwest Trial Grounds, 84 at Storrs, Conn., and attracted much attention wherever shown. The color is Rhodamine Purple, shading to Mauve with light veins of silver. Bushes grow tall and the large blooms are well placed on stems from 18 to 30 inches long. A free bloomer, wonderful keeper, and last, a good root producer. Grow this for pleasure and prizes....**\$4.00**

**Roots
Div.**

ORCHID DREAM — Another beautiful Seattle Dahlia of Mr. West's that is all the name implies, a true Orchid. This is a real beauty and a dream of delicate color. The flowers are large with loose petals averaging nine inches, with ordinary dis-budding. Bushes are medium tall, of slightly branching habit and many blooms at a time. No other flower attracted more attention in the garden than this beauty. You will make no mistake by growing this. It is also a good root producer. We have a good stock and the price is only..... **4.00**

**WATCH FOR OUR INTRODUCTIONS NEXT YEAR—
"SPOTLIGHT" and "POTLATCH"**

**Following Is a List of Desirable New and
Standard Varieties:**

ALTA WHEELER (Shorey) F. D.—Large bright scarlet, shading to orange with yellow at base of petals. Medium tall bush with flowers nine to ten inches, held perfectly on stems two feet long. This sometimes comes peony but in both shapes they are beautiful..... **.75**

AMERICAN TRIUMPH (Nuneviller) Cac.—This is a true Cactus of bright Oriental red, good size and held nearly on top of long stiff stems. One of the few Cactus types that was fortunate enough to get on the Honor Roll..... **1.00**

ANDREA ERICKSON (Fisher & Mission) I. D.—This is one of the big new Whites that attracted so much attention at the Eastern shows. Pure white, having all the good qualities that dahlias are judged by. Ten-inch flowers on perfect stems above a sturdy bush..... **3.50**

ALI BABA (Newsom) I. D.—This new introduction is of a deep rich red, with an orange suffusion, each petal being veined and tipped with gold. Very deep large flowers are held erect on long stiff stems..... **4.00**

ANNA CRAMER (Shorey) S. C.—Tall growing bush with large deep primrose yellow flowers with a slight suffusion of rose. Stems are long and need very little disbudding..... **1.00**

ARDIS (Williams) I. D.—A true purple of one color, good size flowers held well on good stems. The bush has good habits of growth with many side laterals, producing large quantities of blooms **1.00**

BROCKTON BEAUTY (Carver) F. D. — Large flower of pinkish lavender, shading to a creamy white center. Very free bloomer and a real good keeper on long stiff stems..... **1.00**

BAGDAD (Redfern) I. D.—An immense flower of flaming scarlet, borne on long stiff stems high above the plant. An ideal grower and prolific

want rich bright color either for exhibition or bloomer. Highly recommended for those who the garden	Root Div. \$2.50
BUCKEYE BRIDE (Peck)—Geranium pink of a most pleasing formation. Flower is good size with loose petal formation that makes it very attractive, being held well above the plant on good stiff stems. A wonderful keeper.....	1.00
COCARDE . Min. Dec.—Fleming orange scarlet of a most vivid color. The flowers are perfect in form and a wonderful keeper. A basket of these made a wonderful hit at the Western Washington State Fair the past season.....	.50
CITY OF TRENTON (F. & M.) I. D.—A large exhibition decorative of autumn colors, the face of petals a rich tangerine and the reverse a crushed strawberry red. Tall bush literally covered with blooms which keep well when cut.....	1.00
CHEHALEN . F. D.—This is a new variety of unusually pleasing shades. It is a beautiful combination of pink and cream, thick fine petals and always full to the center. Blooms are large and stems are stiff, holding the flower looking at you. A wonderful keeper.....	1.00
COQUETTE (F. & M.) I. D.—An exhibition flower of great beauty, large and bold. The color combination of red and gold is always pleasing, and the huge flowers are freely produced on a tall bush of dark green, making a very striking picture in the garden. Long stems hold the blooms well up	1.00
CHARLES TERRY (Shorey)—A true lemon yellow of solid formation, good large flowers on strong stems. Very bushy plant and it is not uncommon to see eight or ten large blooms at one time.....	.50
CARDINAL GEM —A beautiful small cactus about three inches in diameter and about as deep. A real Cardnial red that is very pleasing. Blooms are held nearly upright on long stiff stems. A dandy cut flower variety.....	1.00
DOROTHY STONE (F. & M.) I. D.—Large brilliant pink, brighter and richer than most pinks with added quality of being a good keeper when cut. Medium tall bush with fine stems and perfectly sturdy. A real fine dahlia.....	1.50
DR. JOHN H. CARMAN (Dixon) F. D.—Large tyrian rose of real beauty. Broad petals deep, and held well up on stiff stems. Plant very sturdy and of medium height.....	1.00
DR. JOHN PALMER JR. (Ferguson) S. C.)—Here is a rich deep red of a wonderful formation. Long slim petals make the large flowers very attractive. Stems are long and stiff, plants of good habit with dark green foliage and a good keeper when cut. You will like this.....	5.00
DORRIS FELLOWS (Fellows) F. D.—Large perfect formed flowers of pale yellow shading to salmon. Flowers are carried on perfectly stiff stems above a medium tall bush, which is very sturdy and insect resistant.....	1.50
DWIGHT W. MORROW (Dahliadel) I. D.—A real large red flower of deep red that is very pleasing. A winner of many prizes and on the 1930 Honor Roll. Plant should be topped out and quite heavily disbudded	3.50
ELITE GLORY (Kennedy) F. D.—Immense flowers of dark red without any trace of purple or maroon. It has been a sensation in the Eastern shows for the past four years and was one of the highest scoring dahlias at the A. D. S. trial grounds.....	1.00

ELITE GEM (Kennedy) I. C.—A true American Cactus of exceptionally fine form. The color is spinal pink on primuline yellow, reverse of petals rosaline purple. Very free blooming on long stiff stems. A winner	Root Div. \$0.75
EL REY (O. & C.) F. D.—Rich Golden salmon with flowers of the Jersey Beacon type, on long stiff stems. Robust bush with fine foliage. Achievement Medal in 1929. One of the best keeping varieties you could grow.....	1.00
EDNA FERBER (F. & M.) S. C.—A huge exhibition semi-cactus of beautiful coral pink shading to old gold at base of petals, which curl and twist making a very full flower. Medium tall bush of dark green. Many times a winner.....	1.00
ELIZA LONDON SHEPHERD (Peacock) I. D.—For sheer beauty this variety is highly recommended. Plants are of tall habit of growth laden with good size blooms of bright gold and apricot. The flowers are of good substance and borne on long stiff stems. The plants attract a lot of attention in the field and are of a size that make a wonderful exhibition flower.....	2.50
EDWARD THOMAS BEDFORD (Chemar) I. D.—A very striking dahlia of a bright cerise with a silver reverse, petals waving in such a manner as to show the silver, giving it a two-toned effect. Plants are medium tall with blooms well up on long stiff stems and of a size and keeping quality that make it fine for exhibition. You will like this..	2.50
EDITH TANNER (Brown) S. C.—This is more of a Cactus, but still some of the petals twist a little. A beautiful vivid rose red and gold. Very startling in the garden and on the show table. Flowers are good size and have wonderful keeping qualities, thus making it very desirable.....	3.00
FARNCOT (Fraser) Cac.—This pretty Cactus variety is always much admired. In color it is Aster purple tipped white. It is a very free bloomer and stems that are perfection itself.....	.75
FRAU O. BRACHT (Berger) Cac.—This German introduction has been the sensation of shows both East and West for the past four years. It is a clear pale primrose, very clean and graceful on long stiff stems. It has won many prizes for the most perfect flower in the show. Every one likes it and so will you.....	2.00
FORDHOOK MARVEL (Burpee) F. D.—This is a lovely peach red suffused with a sparkling salmon-orange. Large size blooms on perfect stems. Bushes are vigorous and insects seem to steer clear of it.....	1.50
FRANCESCA (Davis) S. C.—Large semi-cactus of old rose with a distinct violet suffusion and old gold markings on the petals. Free bloomer, Flowers held well above foliage on long stiff stems. Never shows an open center. GOOD.....	1.00
GROVER WHALEN (F. & M.) F. D.—A 1930 introduction that met with immediate favor at the New York shows. A good size flower of rich autumn shades, orange predominating. Very attractive in the garden where it is always covered with bloom. The keeping qualities will always make it a favorite.....	1.00
GOLDEN GIRL (Crites) Cac.—A huge Cactus of pure golden yellow, always in bloom on long stems that are stiff as canes. Bush is rather tall and slightly branching. This variety never fails to draw attention, especially when on the exhibition table. A very DESIRABLE variety in a class all alone.....	5.00

	Root Div.
GOV. MORGAN F. LARSON (Hall) F. D.—Very impressive golden yellow with slight apricot blush on reverse. Has won many prizes in the East including the Governor's cup at Trenton. A sturdy grower and good keeper.....	\$2.00
HARRIET THOMPSON (Crowder) F. D.—A very large exhibition decorative of rich orange buff and bronze, with reverse Orient red. Petals curl giving it a two-toned effect and the stems hold the flower facing. Received certificate of merit at the N. W. Trial grounds. One of the real good large dahlias	1.00
HARRY MAYER F. D. — A beautiful exhibition dahlia of great merit. Color a beautiful silvery pink on face of petals with a rose pink reverse. Thick foliage and long stiff stems. You'll like this one	1.00
HELEN IVENS (F. & M.) F. D.—This is a beautiful orchid lavender that was much admired the past season. The flowers are large and full borne on splendid stems.....	1.00
HATTIE SHELTON . F. D.—Very striking flower of Rhodamine purple, center part of most petals a little lighter. Large flowers with good depth on the best of stems. A certificate was given this variety at Storrs in 1930.....	3.75
IMPERIAL PINK (Hall) I. D.—One of the most imposing pinks shown in recent years. It won gold medals at both the Camden Dahlia Society and Penn. Horticultural Society in 1930. This flower is not only massive but graceful. It is a true pink with a rose pink center. Bushes are tall, stems are stiff. It is a rather late bloomer, coming just in time for the shows.....	4.00
INDIAN RED (Shattuck) F. D.—A very striking flower on extra stiff stems. A bronze red, very odd, with gold reverse. Good growing bush.....	4.00
JERSEY'S GLORY (Waite) F. D.—The color is best described as a yellow hue of orange. A robust grower producing an abundance of large flowers on good stems.....	1.50
JANE COWL (Downs) I. D.—Its great beauty and different formation wins the admiration of everyone. A massive deep flower of glistening old gold and bronze deepening to the center, held perfectly on long stems.....	.50
JERSEY'S MASTERPIECE (Waite)—A bold and upstanding variety of strawberry pink and gold. Large flowers of true exhibition type on long stiff stems	1.50
JULLINAR (Newsom) F. D.—A lovely new dahlia of soft pastel shadings. Lavender heavily striped and shaded with pink, bearing large flowers on extra long stems with hardly any disbudding. The bushes are tall and sturdy.....	2.00
JUNE JUSTICE . F. D.—A large flower of Rhodamine purple and Tyrian rose. Most dark dahlias seem to have a dullness to them but this is just the opposite, being a very pleasing color combination. Stems are long and stiff, holding the large flowers at a perfect position. In all a very attractive dahlia	2.00
JIM MOORE (Loller) I. D.—Clear primrose yellow shading to gold with tints of salmon throughout. Long strong stems hold the bloom facing. An honor roll dahlia that does good everywhere.....	2.00
KING TUT (Seal) F. D.—Not a new one, but still very popular because of its rich velvety, crimson coloring. Tall bushes, stiff stems and a wonderful good keeping variety.....	.75

		Root Div.
KENTUCKY COLONEL (Castlewood) F. D.—	Creamy white shading to light mallow purple, a most pleasing color combination. Good size flowers on long stiff stems, keeping well as a cut flower	\$1.00
KATHLEEN NORRIS (F. & M.) I. D.—	Here is a beautiful rose-pink of massive proportions with broad over-lapping petals filled to the center. There is no doubt that this is the best pink in commerce today, and has won more prizes than any dahlia of recent introduction. Stems long and stiff	1.50
LAKE PEND ORIELLE (Buttel)—	A semi-cactus of entirely different formation and a coloring so dainty one is reminded of a beautiful pink water-lily. A shell pink with the inner petals cream. Center has many smaller cupped petals making it a very artistic flower. This is a real beauty.....	1.00
LAGUNA (Brown) F. D.—	Beautiful lavender of large size on long upright stems. The outer petals are a shade darker than the center. Medium tall bush	1.00
LA TRAVIATA (Brown) F. D. —	A large flower of a pleasing shade of purple, with broad petals, long and pointed curving backwards, showing a high full center. The bush is rather tall and carries the flowers well up on long stems facing the sky. A fine keeping variety.....	3.00
MINNIE EASTMAN (Eastman) S. C. —	Red and gold of a pleasing combination. The blooms are large and on good stems, making it a very fine variety for exhibition. This flower has won its share of prizes all over the country.....	1.00
MY MARYLAND (Downs) I. D.—	This is a combination of delicate pink, ivory and lavender made up of many small petals that twist and whirl, giving it a very pleasing effect. Large flowers are well placed on the best of stems.....	1.00
MRS. ALFRED B. SEAL (Newsom)—	A large glowing old rose, with a perfectly tight center and long flat petals. Tall growing bush and covered with blooms from early to late. This variety has won prizes from coast to coast and you will surely enjoy growing it.....	2.00
MRS. JOSEPHINE SVARZ (West) F. D.—	A very striking color combination being scarlet with each petal edged with gold. Free bloomer on the best stems you could desire and keeping well when cut	1.50
MRS. A. E. WHEELER. F. D.—	A large flower of deep Burgundy, on long stiff stems. The plants are medium short but the stems hold the flower well above the bush looking right at you. This is a good dahlia	1.50
MRS. GEO SHEFFIELD. F. D. —	Here is a real beauty but not large. The blooms are a mallow pink and white about six inches by four on long stiff stems growing well above an eight-foot bush. This variety has won several times at the Western shows as the longest keeper in the show. At the Western Washington Fair the past season a basket of this variety was in almost perfect condition six days after the Fair opened. Good strong roots, only50
MRS. CARL OTT (Shorey) F. D.—	A beautiful Congo pink, of large size, perfectly full center. Bush is rather compact and needs a little thinning out to get the best results. In all a very beautiful flower	1.00

MRS. FANNIE BEALS (Dr. Shattuck) F. D.—This is a deep rose pink splashed with Tyrian rose with a faint shade of yellow at base of petals. Flowers are large with the best of stems, blooming as long and as often as any in the garden. Tall growing plant with fine glossy foliage.....	Root Div. \$3.00
MISS DELAWARE (Swift) I. D. — Light pink blending to cream, something like the formation of Dorothy Stone, but much lighter. Stems are very stiff and it is a wonderful exhibition and keeping variety. A very DESIRABLE novelty....	3.00
MONMOUTH CHAMPION (Kemp) F. D. A.—Brilliant orange flame color that fairly glistens in the light. One of the new favorites that was well received wherever shown and winning any number of prizes. A free bloomer throughout the season..	1.75
MARSHALL'S BEAUTY (Marshall) — A seedling of Jersey's Beauty, not unlike its parent except a much lighter color. Good stems and tall bush....	.50
MISS CALIFORNIA . F. D.—A large and very beautiful blossom of a new shade of Oriental Fuschia. The plant is tall and hardy, while the stems are perfect and exceptionally long so the large blooms are proudly held erect.....	1.00
NEW GLORY (Trostel) S. C.—One of the most striking dahlias in our garden the past season. The tall bush is literally covered with large flowers of dark red with every petal perfectly tipped with white. The quilled effect of the petals near the point give it added attraction, while they are held at just the right angle on long stiff stems	1.00
NORTHWESTERN (Dutton) S. C.—A very attractive flower of deep maroon with each petal tipped a creamy white. Sometimes a full maroon blossom will appear, but they are both beautiful. Good stems hold the blossom "looking at you."....	1.00
NANON LOUISE (Dane) Cac. This fine cactus has caused more comment than any other cactus in our gardens. It is a large Amaranth pink made up of many small tubular petals that are spread out instead of incurving, making a flower of broad proportions often reaching ten inches. Bushes grow tall and blooms freely the entire season. This is one of the real novelties and very much to be desired.....	3.50
NOPAL (Barker) S. C.—A real Nopal red with lighter tips. Extremely free flowering on long stiff stems. Medium tall bush slightly branching. Flowers nine inches	1.00
NANCY CARROLL (Finger) S. C.—This large flower is of a golden russet color blending to reddish orange that is very brilliant at all times. The bush is medium tall and the large flowers are well up on long stems. Very attractive.....	2.00
ORINDA (Newberry) F. D.—An immense flower of perfect form, bright one toned rich mauve pink, and carried well on long stiff stems. This variety has won many prizes the past few seasons besides being an Honor Roll Dahlia.....	2.50
ORIENTAL BEAUTY (Barker) Cac.—For sheer beauty and perfection of form this is the Queen of Dahlias. A clear brilliant rose pink with long slim petals slightly incurved. Blooms average seven inches on long stiff stems.....	1.50
PRIDE OF FT. MORGAN . F. D.—Large deep red of one color. The bush is always covered with the heavy flowers on long stiff stems. It never shows an open center. Admired by every visitor to the garden	1.00

PENN CHARTER (Lyndora) F. D.—A very attractive large dahlia of clear golden yellow tinted apricot, with good center and stems. The bush is tall and vigorous with large thick leaves. Very attractive in every way.....	Root Div. \$1.50
PATRICIA ANN (Delbrugge) F. D. — Here is a very pleasing combination of Picric yellow blending into alizarine pink. The flowering habit is prolific, stems are extra heavy, holding the flowers facing. This beauty has won many prizes since its introduction, and the season just passed it won at the West Virginia Dahlia Society show first in the specimen bloom also first in the vase of three with twenty-two (22) entries to compete against. You will like this one.....	5.00
ROBT. E. LEE (Peacock) I. D.—A rich red that does not burn. Good size blooms on long stiff stems. This is a wonderful showy flower and well liked.....	2.00
ROYAL VELVET . S. C.—This Holland introduction attracts all who see it. It is spectrum red, with center petals carmine. It is one of the most prolific bloomers one could wish, on the best of stems. While not a real large bloom it is very striking and a good keeper.....	1.00
ROSE STILLSON (Seal-Newson) F. D.—A dahlia with a distinctly warm coloring and very attractive formation. The lovely blooms are of large size and a deep old rose touched with violet shading to gold at the base of the petals. Stems are long and stiff. Bush rather tall.....	2.00
ROSE GLORY . F. D.—This is one of the most beautiful dahlias we have ever grown. A one-toned color of deep old rose with rather broad petals pointed and turned slightly back. The stems are long and straight bearing the flowers on top. Bush of average height with thick leathery foliage	3.50
SIGNOOR . S. C.—This is a Belgian introduction of deep blood red. The petals are long and slim with many small petaloids at the center which add greatly to its beauty. Bushes are tall, stems are stiff and is a free bloomer.....	.75
SAGAMORE PRINCE (Dr. Shattuck) F. D.—Here is really something different in dahlia coloring and formation, the blooms are 7 to 9 inches and 2 to 3 inches deep, of a rich carmine blended with rose red, back of petals nearly cream color. This is a medium late bloomer, and the flowers are held on rigid stems facing nearly upright. One of the best keepers in the garden. For a real novelty grow this one.....	3.50
SALBACH'S WHITE (Salbach) F. D.—One of the most perfectly formed white dahlias it has been our pleasure to grow. Its unusually perfect formation and waxy appearance make it an outstanding and much admired variety. The stems are perfect.....	.75
SALEM PRIDE (Sickler) F. D. — A spectacular dahlia of reddish violet, streaked and tipped white. Blooms are large and deep on good stiff stems. When disbudded ten-inch blooms are common with five or six open at a time. You will like this one.....	1.50
SERTZ LIGHT (Shorey) F. D.—This is a tall variety of that pleasing combination of red and yellow. Face of petals are scarlet tipped amber yellow, with slight trace of same on reverse. The stems are extra long and the flowers are wonderful keepers	1.50

	Div. Root
SANTA ANNA. S. C.—A beautiful shade of deep rose with a faint gold suffusion. Petals long and wavy, held well above dark green foliage makes this variety very striking. Splendid for exhibition	\$1.00
SANHICAN'S BLUE BIRD (F. & M.) I. D.—The color of this dahlia is most uncommon, the outer petals are a bright violet-blue, while the center is darker violet. This is the nearest approach to a blue yet on the market. A handsome flower with a strong wiry stem.....	1.00
THE WORLD (Dahliadel) F. D.—A rich and beautiful combination of colors, being a deep rosy magenta overlaid garnet with silver shadings on edge of petals. Strong growing bush with perfectly stiff stems, holding the large flowers facing you	1.50
THE LEMONADE (Ward) I. D.—Here is the best light lemon colored dahlia in existence, blooms measuring nine inches with ordinary care, and very little disbudding. The large flowers are held away from the bush on nice long stems. We all like it	1.00
THOMAS EDISON (Leeds) S. C.—A most attractive tall growing bush covered with large flowers of a dark velvety maroon, that stand nearly upright on long sturdy stems. The petals twist and whirl, folding nearly back to the stem showing a reverse of light lavender. Very popular at the recent Seattle shows.....	1.50
TREASURE ISLAND (Dahliadel) F. D.—Bright apricot with gold and rose suffusions. A good grower producing an abundance of fine exhibition blooms of large size. This flower has won more than its share of prizes.....	1.50
THOMAS A. EDISON (Dahliadel) F. D.—Royal purple with staghorn petals, cane stiff stems, thrifty growing habits and a nice bush. A royal flower	1.50
UARDA. S. C.—This is a rich appealing flower of Begonia Rose, with a faint overcast of purple. The flowers are good size with long slim petals, borne well above the bush on long stems. A wonderful free bloomer.....	1.00
W. D. CARTRIGHT. I. D.—Here is a wonderful flower of English Origin, very similar to Jane Cowl in color but with longer looser petal formation. Flowers are very full and held well above the medium-size bush on good stiff stems.....	1.50
YANKEE KING (Wood) F. D.—A majestic flower of Carnelian red with slight mallow purple on reverse. Flowers will average eight inches on long stiff stems.....	1.00
YANKEE QUEEN (Wood) F. D.—A companion to Yankee King, aslo a good grower with beautiful light pink blossoms on good stems. Dainty and beautiful	1.50
YOSEMITE (Redfern) S. C.—Tall bushes holding beautiful Amaranth pink blooms of good size on long stems facing. This is a very artistic formation of long wavy pointed petals that attracts the minute one sees it. Free in bloom.....	2.50

POM PONS

We have a nice collection of very DESIRABLE Poms that will add beauty to any garden. Following is a list that have done the best for us:

AMBER QUEEN —A general favorite of amber and bronze on long stems.....	\$0.25
ADRIENNE —A lovely blend of reddish orange on long stems, small flower.....	.25
AIMEE —Very small bronze on long slim stems.....	.25
ALICE ROCKWOOD —A new variety of pleasing old rose, extra long stems.....	.25
ANNA VON SCHWERIN — Delicate light pink blending to a nearly white center, of small size and perfect formation. One of the very best.....	.50
BLUSH GEM —Pale pink edged with cerise. Small and good35
BOBBY —Deep plum color, med. size, long stems.....	.25
DAISY —Amber shading to salmon, small with long stiff stems. Extra good.....	.35
DEWDROP —Small white tipped lavender. Bushes tall and free bloomer, long stems.....	.25
DONALD GORDON — Small orange red. Long stems, best of form.....	.50
GRETCHEN HEINE —Very popular small white, edged with pink25
